Areas of Achievement: Positive responses to the pandemic

Stock nursery on site to keep trees and shrubs ready to be planted as and when required. The site was well maintained and all the work was done by volunteers which is an achievement. The conservation group has an excellent working party that meets on a Monday to help with all the maintenance on the site.

Areas for Development:

Continue building on the project to develop and make good footpaths / walkways on the site. The group could consider putting more waste bins on the site.

Overall an excellent conservation group and site.
